Building Knowledge, Building Confidence with BBA!

This website is here to give you a solid foundation of information for your building project. Think of it as a helpful guide, but remember, it can't replace the expertise of a qualified professional like an architect, engineer, or surveyor.

Here's the key thing to remember:

- The information we provide is for general purposes only. It's always best to consult a professional for advice tailored to your specific project.

Building by the Rules:

Building codes and regulations are different across each state and territory in Australia. To make sure your dream becomes reality, you need to follow the right ones! We've included some helpful links below to get you started:

- **Australian Building Codes Board (ABCB):** <https://www.abcb.gov.au/> (National overview of building codes)
- **State Building Commissions:** Search online for "[Your State] building commission" to find the relevant authority in your area. These websites provide specific information on building codes applicable to your location.

We're Not Builders (But We Can Help!)

While BBA doesn't directly offer building or brokerage services, we're happy to answer any questions you have about

the information on our website. Don't hesitate to contact us at info@builderbrokersaustralia.com.au.
